Dear Mr. Seño,

Thank you for the chance to apply for the IT Intern role at Kaluppa Foundation. As a fourth-year student at the University of Makati, majoring in Information and Network Security, I have developed a strong foundation in IT principles and practical applications that I am looking forward to bringing into your team. My coursework, combined with hands-on projects has given me a complete understanding of network security as well as web. Development aligns well with the needs of an IT internship.

This allowed me, in my studies, to work on projects related to network security protocols and website development, one of which includes my capstone project focused on creating a device-agnostic platform for cultural and artistic program management. This experience allowed me to sharpen my skills in HTML, CSS, and JavaScript while handling technical responsibilities but also project-based. Further, as an active member of the Technical Committee for the College of Computing and I have derived valuable teamwork and problem-solving skills from it, which further Reinforcing my commitment to professional growth

I am especially attracted to this internship based on its dedication to innovation and development in the IT field. I am positive that my knowledge, combined with my enthusiasm for learning and contributing to About impactful projects, and would make me a great asset to your team. I look forward to contributing to your team's goals and to learn from experienced professionals in the field.

I hope that after reading my resume you will agree to the fact that I am the type of competent and competitive candidate. you are looking for. I look forward to elaborating on how my skills and competencies in particular can help your organization

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

William Duncan O Gonzales
